

PLANS COMPLETED FOR FUNDING OF BRITISH WAR DEBT

Final Draft Expected to be Sent to the White House Today

(By The Associated Press)

WASHINGTON, Feb. 2.—The American debt funding commission, in conversations today with Sir Auckland Geddes, the British ambassador as the representative of his government, completed details of the program for the funding of Great Britain's war-time debt to the United States. The final draft of the plan is expected to be sent to the white house tomorrow with recommendations that it be given executive approval and be sent to congress for legislative action in confirmation of the commission's negotiations.

While the commission and the British ambassador were working the final details of dates of payment, denominations of the British bonds to be issued and other minor phases of the question statements emanated from the white house to the effect that the president believed the settlement so worth while that it ought to be accepted at this session of congress.

Administration spokesmen represented the president as believing that the debt funding act should be adjusted to encompass the terms of the British settlement.

It was said in authoritative quarters to be the President's intention to send the commission's recommendations to congress early next week. The question of the soldier bonus amendment to any legislation transcribing the settlement into law foreshadowed yesterday in congress, cropped up again today. The settlement was attacked and defended in the house. Representative Garner of Texas, ranking Democrat on the ways and means committee assailed the funding commission's work as having been a settlement outside the law which created the commission and made possible the extension of time to the foreign countries in which to pay their war-time obligations to the United States.

Conservative Republicans countered with a statement that members of the funding commission had conferred with Republican leaders in congress regarding what terms would be acceptable to congress, and added that while congress was not bound by the commission's action, he believed congress would accept it by a large majority.

At the white house it was said the president regarded the rejection of the soldier bonus issue into the settlement as unseemly at this time and so far as the executive branch of the government was concerned the soldier bonus proposal should be counted out. From this statement leaders in the administration predicted that all of the administration support that ever has been mustered behind the president would back up his stand if and when the bonus amendment is put forward.

The president was declared to be opposed not only to the soldier bonus amendment but to the attaching of any other rider to the legislation ratifying the debt settlement.

Statements that the rates of interest which the British government will pay under the agreement are lower than those being paid by this government on its own securities were denied again today at the treasury where it was said that the average of rates paid by the United States was a percentage almost exactly offset by the British rates. The American average rate on its face, but attention was called to the fact that this government is deriving taxes on million of dollars of incomes into which its interest payments have gone.

The net result therefore, officials declared to be little if any higher than that to be collected from Great Britain under the settlement terms.

STATE TROOPS ARE ORDERED TO CORBIN, KENTUCKY, FRIDAY

Local Authorities Say That Situation There is Critical

(By The Associated Press)

FRANKFORT, Ky., Feb. 2.—Twenty-five national guardsmen from Troop B, 53rd Machine Gun Squadron, London, Ky., were ordered to Corbin, Ky., tonight by Governor E. P. Morrow after Mayor Gilliam of Corbin, and Sheriff Young of Whitley county had reported the situation there was getting beyond their control. The present strained condition followed a gun fight between railroad workers and special officers early Tuesday when two men were killed and two wounded.

Corbin, Kentucky, February 2.—A strained situation ascribed by officials here to a gunfight early Tuesday between railroad workers and special officers in which two men were killed and two wounded has resulted in the ordering of 25 national guardsmen here for duty.

In an appeal to Governor Morrow for troops, Mayor Gilliam and Sheriff Young were said to have declared the situation, while quiet was getting beyond the control of the local officials. It was said special police recently appointed were resigning and that city officials were unable to obtain others to fill the vacancies caused by the resignations.

The cause of Tuesday's gun fight has not been established definitely. J. C. Barker, 44, train dispatcher for the Louisville and Nashville road and George Yaden of London, Ky., a special policeman, were killed. Jesse Barker, switchman and Fred Day, special officer were wounded. A. K. Richmond another special officer engaged in the battle but was unhurt.

Corbin, key to the Cumberland Valley Division of the L. and N. was the center of a bitter controversy during the railroad strike last summer and since that time has been the scene of several disturbances. Generally suggestions that labor trouble was back of the outbreaks were dismissed by local officials.

Governor Morrow has maintained one or more national guard officers as observers here practically every since the inauguration of the rail strike.

While the investigation to determine the cause of the explosion in the Springfield Gas Light company yesterday afternoon, which resulted in three deaths, injuries to scores and widespread damage, is still underway it is now believed that the explosion was caused by a spark from an electric elevator in the center of the building.

The investigation has indicated that workmen were turning off a valve on one of the purifiers, which had been leaking, when the explosion occurred. Six men were at work in the plant who escaped serious injury said that water in one of the filter boxes had become dangerously low and that frantic efforts were being made to turn off the supply of gas into the filter at the time of the explosion.

Estimates of the damage caused vary, but it is said the figure will total approximately \$500,000. Replacement damage is estimated at about \$1,000,000.

COBLENZ, Feb. 2.—After a conference between French and German officials here this afternoon it was announced that all workmen on the Cologne-Trevis railway line would return to their posts Saturday. BOOT LEGGERS IN WASHINGTON ARE GIVEN SURPRISE

Revenue Agent from Kentucky Does Sherlock Holmes Act

(By The Associated Press)

WASHINGTON, Feb. 2.—J. L. Asher, a revenue agent from the Kentucky mountains who came to Washington three weeks ago and has put in his time since in guises ranging from an art cart driver to a Kentucky colonel at a fashionable ball today directed more than sixty revenue agents and police in liquor raids on sixty places netting the arrest of about ninety persons including twelve women and the confiscation of more than 300 gallons of intoxicants.

Evidence for the raids which were begun in five police precincts at 11 o'clock this morning and were not completed until late in the day, the most all-inclusive campaign conducted in the city since the advent of prohibition was obtained almost entirely by Asher.

Practically all the prisoners were held for \$1,500. The police and revenue agents guarded prisoners and directed the storage of huge supplies of corn whisky, bonded goods and wine carried from the raided homes in government trucks and automobiles.

In only one instance were the raiders disappointed by failure to find the goods described by the Kentuckian.

Asher first drove into the underworld in quest of the bootleggers rendezvous aboard an ice wagon as a helper. He then switched to an art cart and quickly caught the trail of victims as he picked up the "empties" in all corners of the city. Then as a coal wagon driver, he got into the homes again assisting in storing away the coal and modestly accepting pint bottle rewards. He later appeared as a piano tuner and again as a lawyer.

Before long Asher had won the confidence of the principal bootleggers in various sections and by aiding to store away the goods in his capacity as a wagon driver and helper gained knowledge of numerous and clever hiding places for the goods.

With this evidence in hand the raiders went quickly to the secret caches, these including holes in the wall, baby cribs, pianos, phonographs and chicken coops.

In one home more than ten gallons of liquor was found tucked away behind the wall moulding in various rooms.

One woman was reported by Asher to be selling liquor in baby milk nursing bottles and police confiscated more than a dozen such receptacles well filled from her home.

As a retired Kentucky colonel at a recent ball Asher was introduced to several alleged bootleggers, arrested today as an agent preparing to ship considerable whiskey here from Kentucky.

So complete was the agent's disguise that while returning to police headquarters one day dressed as a tramp with several quart bottles bulging from his pockets he was arrested by his immediate superior officer before the officer discovered his identity.

WILL ASK HELP FOR BARGE LINE

(By The Associated Press)

ST. LOUIS, Mo., Feb. 2.—Delegates from New Orleans, Mobile, Birmingham, Memphis, Cairo and St. Louis will appear before Secretary of War Weeks next week and ask for an appropriation of \$3,100,000 for the Mississippi Warrior service (The federal barge line) James E. Smith, president of the Mississippi Valley association announced tonight.

Smith said that Secretary Weeks had indicated that \$1,000,000 would be appropriated for the barge service but declared that the larger amount is necessary to buy new equipment as the present equipment is not sufficient to handle the tonnage offered. He added that increased facilities were necessary for the line in order that the service could make a proper demonstration of its ability to handle freight economically.

Completes Work On Farm Legislation

(By The Associated Press)

WASHINGTON, Feb. 2.—Work on the farm credits legislation was concluded by the senate tonight when it passed the Lenroot-Anderson bill. The bill now goes to the house where the Capper cooperative credits bill is under study.

The vote on passage was unanimous, 69 to 0, the measure going thru without material amendment. The vote was made unanimous when Senator Norbeck, Republican, South Dakota, had withdrawn a lone negative vote, explaining that he would be "a good fellow."

The Lenroot-Anderson bill provides for a maximum credit of \$120,000,000 for agricultural loans thru the existing farm loan system by establishment of 12 agricultural credit departments in the twelve land bank districts. Each would have \$5,000,000 capital from the government with authority to double the entire capital to \$60,000,000. Authority to issue \$1,200,000,000 in tax free debentures to provide additional loaning capital would be given subject to approval of the farm loan board.

Would Make Loans. The new credit departments would make loans from six months to three years on agricultural paper to co-operative agricultural associations on livestock. Interest rates chargeable would not be in excess of 1 1/4 per cent.

DEATH PENALTY FOR CORRUPT OFFICIALS IN SOVIET RUSSIA

Will Have Hard Luck if Caught in Acts of Corruption

(By The Associated Press)

MOSCOW, Feb. 2.—The Soviet government has launched a nation wide campaign to stamp out the corruption of public officials with death the penalty for flagrant offenders.

Thruout Russia, the courts are busy convicting bureaucrats who have followed the custom of czarist days in accepting bribes for public services and also are bringing swift retribution to numbers of village soviet officials who have used their offices to oppress the populace.

Five men, including the chairman of the village revolutionary tribunal have been tried and shot at Igoriefsk in the Rysan district for accepting bribes.

In Moscow last week three officials of the railway administration were ordered shot for corruption in office.

IOWA WILL MAKE IT HARD FOR BOOTLEGGER

(By The Associated Press)

DES MOINES, Iowa, Feb. 2.—With only one member dissenting the Iowa senate this afternoon passed a bill calculated to put out of circulation for long periods of time the wood alcohol bootlegger and the salesman of home made hooch that reeks of fusel oil.

The senate passed the Mead-Caldwell bill which provides that whenever a person dies from the effect of drinking liquor the person who sold that liquor shall be deemed guilty of manslaughter which is punishable by a sentence of not more than eight years in prison.

The bill as passed makes no requirement that the liquor causing the death shall be poisonous. It decrees that the fact of death shall be taken as prima-facie evidence of the fact that the liquor was not fit for human consumption.

RUSSIAN EXILES ARRIVED IN NEW YORK YESTERDAY

Party Comprises 112 Officers of Imperial Army and Families

(By The Associated Press)

NEW YORK, Feb. 2.—Ragged, penniless and worn from three years of itinerant exile 112 former officers of the Imperial Russian army, who later fought in the unsuccessful Denikin and Wrangle campaigns against the soviet government today arrived with their families from Constantinople on the steamship Medusa.

The group headed by General Vladimir Varenke, who said he was once head of the late czar's guard, and General Erkauskas, a former leader in the Denikin army was taken to Ellis Island to await definition of their status by the immigration authorities. They said they had been given special permission to embark for the United States by the American consul in Constantinople on the plea that they would be massacred if the British withdrew from Turkey.

The acute unemployment situation in the Turkish capital was said by Joseph Harsky, former Russian lieutenant and later instructor in the Robert college of Constantinople to be the main factor in the exodus to America. He added that he remained in Constantinople would have meant death for most of the members of the party.

"We learned," he said, "that the bolsheviks who are allied with the kemalists had published a secret list of 400 names of Russians in Constantinople subject to execution. Every one of us who thought he might have been on the list felt it was time to move."

Harsky said he was on his way to Springfield, Ill., to continue his studies. One of the women in the party, Mrs. Arnold Bellizer, who said she was on her way to join her husband, an American, in Valley Junction, Iowa, declared she was the daughter of General Croton, who was killed while fighting under General Wrangle.

MOTION PICTURES BLAMED FOR CRIME

(By The Associated Press)

CHICAGO, Feb. 2.—Motion pictures were indirectly blamed for the prevalence of crime because they appeal to the emotions rather than to the mind by Judge Marcus Kavanaugh of Superior court in a speech at "Better Pictures" banquet tonight.

"In every case of robbery and burglary which I have heard during the past month in my court there always has been the suggestion of picture shows entering into the case," he said. "The picture house is the school room of many criminals. There they get their ideas of what is right and wrong."

Prof. F. Bean McClusky of the University of Illinois said that searches had brought out the fact that educational films can be injected into the school curriculum but that "films can never wholly replace text books and teachers."

Known for years as the silent power behind the political organization of Mayor Thompson, Lundin hurried directly to the court from the train on which he arrived from Indianapolis, where he conferred with his lawyers and calmly faced a battery of newspaper photographers and the constant booming of flashlights.

"What's all the shooting about?" he asked. Lundin refused to comment on his indictment meeting all queries with a single word: "Nothing."

Lundin's indictment resulted from a grand jury investigation of the affairs of the school board under the Thompson administration. With twenty-three others he was accused of conspiracy involving more than \$1,000,000 in public funds.

"We will ask for an immediate trial just as soon as we can look the indictment over and get the legal matter in shape," Clarence Darrow, Lundin's attorney said after his client had given bond. "That is Mr. Lundin's wish in the matter."

PRESIDENT NOT ABLE TO GIVE INFORMATION

(By The Associated Press)

GERMANS CALL OFF RAILROAD STRIKE IN OCCUPIED ZONE

Obeying of Orders Makes Big Improvement in Situation

(By The Associated Press)

DUESSELDORF, Feb. 2.—The calling off of the railroad strike by the German authorities and obedience by the railwaymen to a request of the authorities that they resume work on all lines where they would not come in contact with armed French soldiers were the outstanding developments today in the events of a day that was regarded by observers as having brought forth a great improvement in the French position in the Ruhr and the Rhineland. A majority of the railroad workers in both regions adopted the suggestions of the authorities that they resume their jobs.

Complete stoppage of all exports of coal and coke into the interior of Germany during the past 48 hours, with the extension today of similar restrictions on shipments of benzol and all other mine by products were other developments considered of advantage to the French. In addition the French have taken over the handling of food trans consigned to the regions traversed by the railroads where strikes still are in effect and also directed the transportation by barges in the canals and the Rhine of sufficient coal for the needs of local populations and industries.

The complete cessation of coal production at the mines now virtually an accomplished fact and the inability of the French to send by rail into the situation favoring Germany in her policy of resistance.

In assuming charge of the feeding of the civil population in the Ruhr where the railway strike persists the French moved three trains into the region today manned by French crews. French troops began the hauling of coal thru Ruhrort and down the Rhine to Duesseldorf to supply the needs of civilians and industries.

Resumption of Work Complete.

The resumption of work on the railroads is complete at Cologne, Coblenz, Treves and Ludwigshafen and practically complete on the Ruhr lines excepting those entering the industrial basin.

These lines the French are operating. At Mayence the strike is in full swing owing to the French refusal to obey an ultimatum of the railway men that they release strikers under arrest. The French said the railwaymen had been arrested for common law acts and sabotage.

The mining operations today reached the lowest level. Production was practically nil. The miners descended into the pits but only to repair the galleries.

It developed today that orders from Berlin for the strike of the railwaymen to begin was delivered by special agents personally to every station master in the Ruhr and the Rhineland. The order was accompanied by one month's pay in advance.

The French announced today that their embargo on coal and coke, inaugurated at midnight of Wednesday, had been a complete success. They brand as false a story circulated from German sources that one train since the embargo ran the blockade. They declare that no attempt at such a maneuver was made. It was added that the French were permitting coal cars consigned to Switzerland, Holland, Sweden, Norway and other neutral countries to cross Germany on the way to their destination if their way bills were correct.

General Payot today told The Associated Press that his services now were sufficiently organized to insure the feeding of the civil population and that within a few days he would be able to undertake the transportation of reparations coal to France. At present General Payot is operating the railroad from Duisburg thru Becklinghausen to Lunen, along the northern boundary of the occupied zone and also the line from Duesseldorf thru Werden to Essen and Dortmund, with a branch to Hattingen.

BERTON BRALEY'S DAILY POEM

GO ON

By Berton Braley

KEEP on a little longer,
Though the game seems gone,
It makes your spirit stronger
If you just keep on;
What if you're sick and stale, you're
Not all gone, I guess,
Keep on, it's thus that failure
Often brings success.

KEEP on a little longer,
Why should you admit
That anybody's stronger
Than yourself—and quit?
Although your pep's diminished,
Why, the wise guy knows,
The game is never finished
Till the whistle blows.

WHEN every bone and sinew
Seems to fail you, flat,
There's something else that's in you
Which is more than that;
There's a spirit that is stronger,
With a vigor strange,
Keep on a little longer,
And the luck may change;

ILLINOIS BUILDING OWN HARD ROADS

Has Four Camps at Work—Work Is Being Done By Day Labor.

Springfield, Ill.—By the Associated Press.—Illinois is now "bossing" four road building gangs constructing hard roads by day labor. This venture reveals that not all the state roads are constructed by the contract system. Two day labor road building camps have been added, making four outfits operating directly under the control of the state highway department.

The building of roads by day labor has been undertaken for two reasons, state officials of the department said. The day labor road camps work as experimental laboratories for the highway department thru which the department gains much first hand knowledge, enabling them better to draw specifications and contracts. The labor method also has proved cheaper than the contract system in many sections, the department says.

The four camps are at Dwight, Livingston county; Boskydell, Jackson county; Winchester, Scott county; and Pittsfield, Pike county. They are under direct supervision of C. S. McArthur, general superintendent of day labor construction. The Dwight outfit made an early start in the spring of 1922 and by the first of July had laid 5.6 miles of pavement west of that town. By the end of the year 6.5 miles north of Dwight was completed and the outfit collected together for shipment to the next job. It will be located at New Lehigh, near Kankakee, on Route 17.

The Boskydell camp, located at Cobden, Union county, during the early part of last year, built about six miles of road north toward Carbondale. Later it moved to Boskydell and constructed about one mile of pavement north of the work already done. During 1923 the state expects to complete the fifteen mile stretch between Cobden and Carbondale.

The two outfits at Winchester and Pittsfield started work during the spring months. As work progresses, they will meet at the Illinois river, thus completing the hard road between those towns. The camps are organized and have in operation a stone crusher which produces about 150 yards a day, providing coarse gravel for both jobs.

TURKS ARE STILL LOOKING FOR TROUBLE

(By The Associated Press)
LAUSANNE, Feb. 2.—A list of some 30 points on which the Turks differ from the allies was sent to the allies today by the Turks in connection with the peace treaty which the new government is seeking to conclude. The Angora delegates to the Near East conference still refuse to accept the clause in the allied draft treaty under which foreign legal courts would sit with Turkish magistrates in trials involving foreigners, steadfastly maintaining that this violates their sovereign rights.

The question of judicial guarantees for foreigners in Turkey, which is foremost among the 30 points, was considered this afternoon by the allied jurists and an answer probably will be handed to Ismet Pasha tomorrow. The Turks are compiling a formal reply to the allied draft treaty and the treaty will be completed when this answer is received. A conciliatory mood is being shown by the allies and the various delegations appeared to be optimistic tonight that the peace protocol will eventually be signed.

Nineteen different farmers have clover seed on display in the farm bureau office. WHITE HALL RED CROSS ELECTED OFFICERS

S. G. Sykes Named President at Meeting Held Recently Jointly With Good Fellow Organization

White Hall, Feb. 2.—A joint meeting of the Red Cross and the Good Fellows were held in the city hall Thursday evening. It was the occasion of the annual meeting of the Red Cross, and officers were elected as follows: President, S. G. Sykes; vice president, Mrs. Lee A. Hanchett; secretary, Miss Helen Worcester; treasurer, Miss Mary Worcester; There was a little more than \$2,000 on hand, and the membership is 120. The session was presided over by Mrs. Mabel Lowenstein.

There were thirty present, and the Good Fellow section was presided over by Rev. L. E. Ellison. It was decided to purchase an instrument for the high school band but argument against the use of the \$100 on hand prevailed, and the amount needed will be raised by popular subscription. A committee, consisting of T. M. English, George Spangenberg and R. F. Ballard was named to get the money and buy the instrument. The Odd Fellows have already appropriated a goodly sum for the purchase of an important instrument that will have "I. O. O. F." inscribed on it, and other organizations and individuals are falling in line to such an extent that the band will soon be handsomely equipped. It is under the direction of Ray Bechtold, one of the high school instructors.

OBITUARY

Mrs. Hannah Catherine Pearce, wife of William C. Pearce. The subject of this sketch was born near Carrollton, Ill. (Greene county), July 19, 1860, and departed this life after a brief illness at her late home in Manchester, Ill., Tuesday, January 30, 1923, at 3:30 p. m., age 62 years, 9 months and 11 days.

She was the third child and second daughter of Cyrus and Martha E. Green. Soon after her birth she came with her parents to Manchester, Ill., where she spent the remainder of her life. Her parents preceded her in death some thirteen years ago, and also her brother, Robert A. Green.

She was married to William C. Pearce September 25th, 1887. To this union were born two daughters and one son, Elsie, wife of Claud Tieston of Manchester, Ill.; Fred S. Pearce of Summit, Ill., and Miss Louise Pearce, who is a student of the Illinois Wesleyan University, at Bloomington, Ill. These with her husband, one grand daughter, Clara Catherine Heaton of Manchester; one nephew and niece, Russell and Louise Green of Portland, Oregon; Three sisters, Mrs. Alice Wallis, Mrs. R. H. Walton of Manchester, Ill., and Mrs. William Strang of White Hall, Ill., and one brother, Ernest M. Green of Chicago, with other relatives and a host of friends are left to mourn their loss.

She will be sadly missed in the home, as well as the church; the neighbors, and the community in general. Some years of her life was spent in the home of her uncle, J. C. McConnell, where she assisted in the care of his two motherless children, Herbert McConnell and Frances, now the wife of R. C. Curtis of this place. She was a charter member of the Manchester Order of Eastern Star. She held the office of Worthy Matron for two consecutive years; also chaplain. She was converted in the year 1907, and united with the M. E. church at this place. She was faithful with all the activities of the church. She will be sadly missed in the Sunday school. Also in the Ladies Aid of which she was treasurer at the time of death. She went from us so suddenly—from the Church Militant to the Church Triumphant.

There is a land of pure delight where saints immortal reign. Infinite day excludes the night, and pleasures banish pain.

Mrs. Pearce, as a home-maker had few equals. She loved her home and children, and was a true devoted wife and mother. Always kind, loving and true. (What is home without a mother-love?) The loved ones left here are comforted with these sweet memories of a mother's devotion to the home life. As a neighbor she was interested in others. One neighbor said to the pastor, "What will I do when she is gone?" To those in sickness and sorrow, she was a kind, thoughtful neighbor in deed and in truth.

"I cannot say, I will not say That she is dead, she is just away. With a cheery smile, and a wave of the hand, She has wandered into an unknown land, And left us dreaming how very fair, It needs must be since she lingers there."

And you, Oh, who wildest yearn For the old-time step and the glad return. Think of her taring on so dear, In the love there as the love of here. Think of her still as the same I say, She is not dead—she is just away."

Funeral services were held in the M. E. church Friday, February 2nd, at 2:30, conducted by the pastor, Rev. H. M. Ingram. Interment in the Manchester cemetery.

William Bishop of Pisgah was among business visitors in Jacksonville yesterday.

SHURTLIFF IS FOE OF ILLINOIS TONIGHT

Alton School Will Play First of Two Game Series In David Prince—Illinois Not In Best of Shape for Fray.

Tonight at 7:45 the Shurtleff College team will lock horns in the first game of the annual two-game series. This has been a rocky week for the Illinois college players. They have been wrestling all week with the semester examinations and several of them, not content to spend their energies trying to land A grades, are also trying conclusions with old man "Fluke" who seems to be presenting himself just now in a mild form.

How many regulars will be on hand tonight is uncertain and how long the ailing ones will survive is still more uncertain. This malady, akin to the flu of war days leaves victims with little energy in reserve.

Last year Illinois won from the Baptists in both games and are determined to start out tonight on the road to two more victories.

To ter, son of Dr. George Potter, president of Shurtleff college, is one of the star players of the Shurtleff team. Wones is another man who will give the Illinois players plenty to do to keep him from dropping the ball in for numerous scores.

Capt. Mellon of Illinois, is not feeling extra well, and Goebel may start the game at center. Hiatt's little toe, which was thrown out of place in the St. Louis University game, seems to have mended so that he can get back into the game. Elder, Henry, Dale and Fenogles will be available as forwards. Jack Roberts, Struck, Gard, Hoskins and Butler will tear the brunt of the defense.

Following the college game the Junior and Freshman class teams will play a game of the inter-class series now being carried on.

ILLINOIS DEFEATED MINNESOTA 24 TO 21

Minneapolis, Minn., Feb. 2.—Illinois defeated Minnesota 24 to 21 at basket ball tonight. The result was not decided until the last few minutes of play. It was Minnesota's fourth straight defeat in as many star's this season.

Mrs. J. E. Thompson of Murrayville was listed among Friday shoppers in Jacksonville.

Here's a popular way to serve Kellogg's Bran—greatest health food!

Most every one who realizes how effective Kellogg's Bran is for the permanent relief of constipation has their own particular way of serving this wonderful cereal. Most families eat it as a cereal with milk or cream. Others sprinkle it on their favorite hot or cold cereal. Every one enjoys its nut-like flavor!

If you are cooking a hot cereal try this method:—Measure out two table spoonfuls for each member of the family. Mix it with the cereal and cook as you always cook the cereal.

Kellogg's Bran is scientifically prepared and ready to eat, but its regulatory powers are in no way impaired if you cook it with other cereals. Kellogg's Bran has won the friendly recommendation of physicians because it does give prompt and permanent

I. S. D. WINS FROM MURRAYVILLE HIGH

Game Is Hard Fought Thruout—I. S. D., Shows Fine Work In Second Half On Both Offense and Defense.

(By WILLIAM JOHNSON)

The Illinois School for Deaf quitted sprung a pleasant surprise last night when they defeated the highly touted Murrayville High five by the score of 23 to 13.

It was the first victory of the season for the local team after bowing to four defeats in a row.

The splendid floor work of the I. S. D., excelled the past to such a degree that the fans were bewildered and amazed at the speed they displayed during the game.

Murrayville played hard to win in every minute of the contest, which was a bitterly fought one. The visiting team was unable to find the basket on numerous occasions which cost them the game.

They carried the ball down to the center of the floor only to have one of the I. S. D., athletes pluck it rudely away. The I. S. D., defense bristled every time a Murrayville player came within striking distance.

Murrayville's hard luck on hitting the hoop probably cost them several points. Wright and Woods, forwards on the visiting team appeared as if they had lost their shooting eye during the week. They spilled the "milk" when it was greatly needed.

In the first half the I. S. D., played in a wild fashion, in an effort to win. Poor shooting on their part was one of the main factors during that half of the game. They played listlessly and displayed no team work. However, this sort of playing did not last thruout the contest. From the bursting of the final whistle, they played as if they had full control of themselves.

Murrayville returned in the second half determined to win, but the brilliant defense of the I. S. D., prevented.

Every man on the I. S. D., played a good game. Crabbe proved to be a stone wall on the I. S. D., defense.

Wright and Carlson were shining performers for Murrayville.

SPRINGFIELD EVENS SCORE BY VICTORY

Defeated Jacksonville High Last Night by Score of 21 to 14—Locals were Leading at the Half.

Playing a poor offensive game especially in the second half Jacksonville high lost to Springfield on the capital city floor Friday night by a score of 21 to 14 thus evening the score between the two teams.

Jacksonville started off in fine form and at one time had a lead of 10 to 6. At the half the score was 10 to 9 in favor of the Red and White.

Springfield came back strong in the second half and in addition to making several baskets, held Jacksonville to four points. The local tossers only scored one free throw in the third period while a free throw and a field goal was the sum total of their efforts in the fourth quarter.

Springfield won in the game in the fourth quarter when she put it on ice with four field goals and a free throw. Consistent work probably would have won the game for Jacksonville. However, Jacksonville has not been playing consistent basketball this season. One game she plays like a champion and the next is a complete reversal of form.

The score: Jacksonville, F. G. F. T. T's Hunter, f. 2 4 8 Deatherage, f. 1 0 2 Harrison, f. 0 0 0 Putnam, c. 0 0 0 Hunt, g. 1 0 2 Zell, g. 0 0 0 Hopper, g. 1 0 2

CHANCES FOR HEAVY MATCH LOOK SLIM

NEW YORK, Feb. 2.—Jack Dempsey's chances of defending his heavyweight titles this year, at least in New York state, were reduced to a minimum today as a result of the decision of William Muldoon, chairman of the state athletic commission not to permit contests with the two men regarded as leading challengers—Harry Wills, New Orleans negro, and Jess Willard, former champion. Excessive financial demands by Dempsey's manager, Jack Kearns and alleged "corrupt" methods employed by promoters seeking to stage one or both of the bouts, Mr. Muldoon declared prompted his attitude.

Staging of a Dempsey-Wills or Dempsey-Willard bout in New York state, he said, would be detrimental to the boxing game. On the surface it appeared that Muldoon's edict would eliminate the only definite fight program now being considered by Dempsey, an offer by Tom O'Rourke, Polo grounds matchmaker for bouts this summer with Wills and Joe Beckett. O'Rourke and Kearns, however, denied the bid had been withdrawn.

Kearns has promised to give O'Rourke an answer Monday. If it was rejected the latter said he would make no further bid for a Dempsey match.

Muldoon's attitude toward Wills came as a surprise to boxing circles because of the commissioner's previous insistence that the negro's challenge which resulted in the signing of a tentative agreement with Dempsey six months ago be recognized.

He pointed out that no promoter had shown him a bona fide proposal for a Wills-Dempsey match and that he would regard the negro's challenge as eliminated from further consideration. No racial question he emphasized, however, was involved.

Meanwhile, neither Jess Willard, who has been in New York for several weeks seeking to sign with Dempsey, nor Kearns appeared discouraged by obstacles set in the path of heavyweight title matches this year.

Kearns reiterated his desire for bouts with both Wills and Willard.

Willard engaged this afternoon in a strenuous gymnasium workout. He announced he would go ahead with plans for a country-wide exhibition tour and possibly a match or two with other heavyweight contenders in an effort to prove his fitness for a return bout with Dempsey.

ROUT RUNS AWAY WITH ALL AMERICANS 42 TO 29

Visitors Were Outclassed Especially in the Second Half—Seventh Grade Parochial Won from Registers 31 to 1

Routt high school defeated the All Americans, an independent team of Springfield in Liberty hall Friday evening. The game was witnessed by a large crowd and during the first half furnished lots of thrills for the spectators.

At the end of the half the score according to the score book, was Routt 22; All Americans 23. In the second half, however, the Routt tossers put on more steam and walked away with the game, meanwhile holding the visitors to three baskets.

Gebert was a marked man in the game last night and was only able to make four baskets, so closely was he guarded. However while so much attention was being paid him Trahey and Norris got busy and dropped in enough baskets to put the game on ice. Each of these players scored eight baskets for a total of 32 points between them which was enough to win the game without any help.

Doyle and Mallen did some excellent guarding in the second half when they stopped Grehn and Burkhard who were doing some rapid scoring in the first half.

The team from the seventh grade of the Parochial school defeated the Register Tigers 31 to 1. The Tigers proved to be regular kittens in the hands of the seventh graders. The score: Routt, F. G. F. T. T's Gebert, f. 4 0 8 Trahey, f. 8 0 16 Norris, c. 8 0 16 Mallen, g. 1 0 2 Doyle, g. 0 0 0

RUSHVILLE PLAYERS DEFEAT WHITE HALL

Game Friday Night Resulted in Score of 17 to 18 in favor of Rushville—Was White Hall's First Defeat This Season.

White Hall, Feb. 2.—The White Hall high school basketball team went down to defeat at the hands of the Rushville team here tonight, the game ending with a score of 17 to 18 in favor of the visitors. Over confidence was in all probability the cause of the defeat of the local team. The White Hall boys have had four consecutive victories and tonight's defeat is the first of the season.

White Hall led until the last quarter, the score at the end of the first half being 10 to 8 in favor of White Hall, and at the end of the third quarter the score stood 16 to 14 in favor of the home team.

Both teams missed many easy shots at the basket, and this failure on the part of the local boys brought about their defeat. It was a hard fought game thruout, both aggregations exhibiting excellent team work.

LETTER ONLY CLEW IN MINAHAM SUICIDE

(By The Associated Press)
CHICAGO, Feb. 2.—A letter in a woman's handwriting was the only clue today to the mystery surrounding the death of John Minahan, 21 year old University of Chicago freshman who was found today seated in a chair and leaning over a shotgun in his room in the Alpha Tau Omega Fraternity House.

Fraternity brothers, 25 of whom were sleeping in the house, insisted that the shooting was accidental. Minahan, they said, had arisen early to clean his shotgun in preparation for a hunting trip to New Mexico on which he was to have started tomorrow.

Hyde Park police expressed the belief that Minahan had shot himself because of despondency over his health. No one in the house heard the two shots that ended the student's life. This, the police said, was due to the fact that the muzzle of the gun was placed in his mouth before the trigger was pulled. Pending an inquest tomorrow, the police held the letter which was in a woman's handwriting and addressed to Minahan from a Chicago hotel and which arrived after the tragedy, in the hope that it might reveal a motive.

Minahan's death closely followed the announcement that his father, Dr. John Minahan, a noted Wisconsin surgeon, had saved a girl from threatened tuberculosis and probable death by a spectacular operation by removing a tumor from her left lung. The surgeon was forced to stop the girl's heart, move it to one side, and then start it again.

The student's death was the third tragedy in his family. Five years ago his mother was killed when the wheels of train while walking along on the right-of-way. His aunt was drowned when in 1912.

Morgan County's Centenary County Established January 31, 1823 Some Pioneer History

FROM MANUSCRIPTS OF FRANK J. HEINL
In compiling this story of a century ago errors may have crept in and important facts may have been omitted. Suggestions and corrections will be acceptable.

Primeval Morgan County
A century ago, the Illinois country formed the far western edge of the wave of American civilization which was slowly advancing across the continent from the Atlantic seaboard. Not a third of the area of the State of Illinois, when it was admitted to the union in 1818, was occupied by permanent settlements of white men. North of an east and west line drawn thru the mouth of the Illinois river about sixty miles south of Jacksonville, the vast treeless prairies, interspersed with wooded valleys along the streams, were still the domain of the Indian and the fur trader. The irresistible western movement of American people, seeking new homes in the wilderness, had carried them across the Alleghenies, down the Ohio Valley, and into the region of mingled forests and prairies in southern Illinois.

No White Men Until 1819
Prior to 1819, no white man's foot had touched the soil of the present county of Morgan, so far as we know. While French explorers, voyageurs, couriers du bois and traders, and English and American explorers, traders, soldiers and trappers had navigated the waters of the Illinois river which forms its western boundary for 140 years or more, history does not record the name of a white man as having entered the county before 1819.

Vague tradition has it that in 1814 some Illinois rangers from the American bottoms pursued a band of Indian murderers into Morgan county.

Antoine D'Ossia
Tradition also has it that a French priest lived at or near the site of Meredosia in 1819 or earlier. Eames in his "Historic Morgan and Classic Jacksonville" under the page heading "Meredosia Discovered" says:

"In 1819 General Murray McConnell, in passing up the river, found one man living near the present site of the town. This is the earliest mention that we have of the town. This man was a priest by the name of Antoine D'Ossia, and the town was named from the circumstance of a man by this name living on a lake nearby. Later on, Eames asserts that just above Meredosia was the village home of a tribe of Indians and it was here that Antoine D'Ossia labored for the good of these sons of the forests.

The stories of D'Ossia, the derivation of the name Meredosia and the village home of a tribe of Indians are good ones but probably neither is anything more than a story. An exhaustive search of the early histories of the Illinois country and the Mississippi valley discloses nowhere the name of Antoine D'Ossia. It is most unlikely that, if a priest of that name ministered to the Indians there, his name would not appear in the carefully kept reports and records of the early missionary priests.

Indians in Morgan County
As to the village home of the tribe of Indians near Meredosia, nothing appears in the mass of

literature concerning the red men of the Illinois valley to indicate that there was ever a permanent Indian village either at Meredosia or elsewhere in Morgan county. Undoubtedly Indians camped along the river front of the county and fished and hunted there and elsewhere in it, but we are not justified either from history, or relics remaining, in believing that this section was a favorite spot of the Indians or that it ever had their villages or any considerable Indian population, although Indians frequently passed thru it in their hunting expeditions and semi-annual migrations. At many points in the county, were centers of Indian population with some what permanent villages, and cultivated fields, but nothing in Morgan county indicates such villages or agriculture.

Mound Builders
Evidences of occupation by Mound Builders are found in and near the county. The richest field of relics of this type is within a radius of five or six miles of Naples, where there have been counted about fifty mounds. Explorations and excavations of these mounds have revealed carved stone pipes and copper axes. In one mound were found skeletons of ten human beings lying upon or slightly below the original level of the soil and covered by eleven feet of sand and earth. With these skeletons was found a stone disc "sun symbol" with the figure of a human hand carved on one side. In other mounds were found copper axes hammered out of crude ore, bones of animals, bone implements, and broken pottery. On the high sand-ridge just north of Naples, is also an old Indian burying ground where so many bones rest that we must conclude that the spot was some time a village or place of assembly of the red men or Mound Builders. The best opinion is that Central Illinois was probably never occupied by Indians for any length of time, but was the hunting ground of certain tribes strong enough to hold it.

Anomalous as it may seem, a person may be married and yet single for the purposes of the income-tax law. A taxpayer's status with regard to exemptions and credits is determined as in the last day of the taxable year December 31, 1922. If the return is made on the calendar year basis, as most are. If on that day a man and his wife were living together they are entitled to an exemption of \$2,000 or \$2,500, according to the amount of their net income for 1922. If, however, they were separated by mutual consent or were divorced, each is allowed only the \$1,000 exemption granted a single person.

In the absence of continuous residence, together, the question of whether man and wife are living together in the eyes of the income law depends upon the character of the separation. If, occasionally the husband is away on business, or if for any necessary reason a temporary separation exists, the full exemption is allowed. The presence of a wife at a sanitarium, or her unavoidable absence because of ill health does not change the marital status, and the husband is entitled to the full exemption. But when the husband deliberately and continuously makes his home at one place and his wife at another, they are not living together for the purpose of the income tax law.

The law works both ways. A man may wed on December 31, yet he is granted the exemption allowed a married person for the full year. The bride's income for

1922, however, must be considered with that of her husband in filing a return. A widower whose wife died before the end of the taxable year is classed as a single man and allowed only an exemption of \$1,000.

Similar conditions exist with respect to the head of a family. If during the year his support of relatives in his home ceased, he is entitled only to the \$1,000. A man who has a dependent child not mentally or physically defective, that attains the age of 18 years just before the close of the taxable year can not claim the \$400 for a dependent. Likewise if a dependent dies before the end of the benefactor's taxable year, the \$400 credit is not allowed.

SMITH JURY IS STILL DEADLOCKED

(By The Associated Press)
ARDMORE, Okla., Feb. 2.—The jury deliberating the fate of Jeff Smith of Healdton, one of eleven prominent Carter county men charged with murder as the result of the slaying of Joe Carroll, an alleged bootlegger by a party of masked men who made a night raid on Carroll's home at Wilson more than a year ago, still remained deadlocked tonight. Indications were that a verdict would not be reached. The jurors have been out since Thursday morning. It was rumored that a majority stand for acquittal.

GREENE COUNTY MAN CELEBRATES BIRTHDAY

William P. Hitch Has Reached Age of Eighty-Three Years — Other News Notes from Greene County.

White Hall, Feb. 2. — Word from Patterson today states that William P. Hitch has been receiving visitors right along with increasing joy since attaining his eighty-third birthday anniversary last Friday. The event was not celebrated on account of the feeble health of this old veteran of the civil war, he having served with Company H, 91st Illinois Infantry. Mr. Hitch came to Patterson from Madison county when he was only two years old, and his wife is a native. Their family consists of James Hitch of Woodson, Harley of Patterson, Edward of White Hall, and Mrs. Leta Mitchell at home. Mr. Hitch is not befall. He takes a leading interest in soldiers affairs in his home community.

Word from the soldiers' home at Quincy is that Thomas H. Davidson is in a rather serious condition. Mr. Davidson will be 87 years of age on March 18, next. He is the father of Mrs. John Driver, residing on Gregory farm, who is recovering from injuries received in an automobile accident near Carrollton last Tuesday afternoon, when she was being brought home from Eldred by Mrs. Ira Davidson and daughter, Miss Letha, with Dennis Patterson at the wheel. Half a mile north of Carrollton the car skidded, struck an embankment and turned over, pinioning Mrs. Driver underneath.

The receipt this week of a regulation military marker will make the fourth Revolutionary stone to be erected at the White Hall soldiers' monument. It is to the memory of William Thaxton, whose grave is located in a corn field. There are interesting circumstances connected with this transaction, as revealed in the following extract of a letter from Miss Winnifred Jones of Chicago: "I am very much pleased with the good tidings that the Thaxton Revolutionary data had been accepted by the war department. Do you mean that you did not or will not receive the Hicks stone? This branch of the family is perfectly willing that the stone should be erected at White Hall, and, although we are only a remote branch, perhaps we are more interested than those near. Of course I am especially pleased that the war department acknowledges a past error, as it will mean that the D. A. R. will O. K. my papers and entitle me to another bar, making three Revolutionary ancestors whose services are acknowledged. Will you let me know when the stone is received, and when you expect to have your celebration?" July 4th is the appropriate date for dedicating the group of Revolutionary

W. D. Rowe, who was 84 years old last November, is in a feeble condition in the home of his son, J. D. Rowe, having been brought here from Walkerville in order that he might have best attention. He has conducted a rural store for a long period of years, and his property and business at Walkerville have been purchased by J. H. Brown, who has been in charge long enough to indicate that he has made a successful venture. Mr. Brown was formerly associated with G. A. Halbert, his father-in-law, in the grocery business in White Hall.

The Apple Creek Prairie club served lunch at the Kenyon Morrow sale on Apple Creek prairie today, and the proceeds will be devoted to the purchase of furnishings for the new library. OBITUARY.

Ellen Krone Shoney was born in Hanover, Germany, April 15, 1837.

She came to this country with her parents at the age of seven years.

On December 3, 1850, she was united in marriage to Detrick Shoney, who preceded her in death, twenty-three years ago.

Aunt Ellen Shoney, as she was familiarly known, departed this life on January 21, 1923, at the age of 89 years, 9 months and 6 days.

She was one of the best known and highly respected citizens of Scott county, and loved by all who knew her. This union was not blessed with any children, but their home served as a great comfort to many relatives and friends.

She was looked to as a mother by four of her great nieces and one great nephew, namely, John Tomhave, Jacksonville, Rose Tomhave, Bluffs, Ill., Ella Tomhave, Bluffs, Ill., Ella Tomhave Finnermier, Haxton, Colo., and Emma Tomhave Koch, Bluffs, Ill. Elizabeth Tomhave Roggie, having preceded her in death some years ago. Mrs. Emma Koch spent almost her entire life at her home and she and her husband were making their home with her at the time of her death.

Her last illness of lagrippe and old age was of about ten days' duration. All that loving hands could do was done for her but to no avail.

She was a faithful and constant member of the Lutheran church and remained true in this faith until the end, always willing and ready to hear the word of God.

She leaves to mourn her loss, one sister-in-law, Mrs. Louise Krone, Jacksonville, one brother-in-law, John Pieper, Winchester, besides a large number of nephews and nieces.

Funeral services were conducted from her late home, Wednesday, January 24, 1923, at 12 o'clock, noon, to the Neelyville Lutheran church, in charge of the Rev. J. H. Deterding. Interment in the Neelyville cemetery. The beautiful floral offerings were cared for by Mrs. Lois Kroepfle, Jeanette Vortman, Verna Roggie, Bess Pieper, Martha Fuellin and Clara Brockhouse.

The bearers were Detrick Vanlier, George Hufker, Edward Krone, Edward Peiper, Jasper Vortman and Louis Vortman.

A quartet consisting of Edwin Paul, H. Wessler, Mrs. Oliver Hackman of Arenzville and Miss Laura Selger of Beardstown sang Jesus Lover of My Soul, In the Hour of Trial and Jesus Savior Pilot Me.

A large circle of friends gathered to show sympathy and sorrow in the loss of this "dear old aunt," and "friend."

"Gone to rest" but not forgotten.

Sweet memories of "our dear auntie" shall ever remain with us. Her kind and loving deeds shall ever be remembered.

NOTICE

On account of ill health I have moved to St. Louis and will make my home there. I fully appreciate the patronage given me by my friends in Jacksonville.

GROUT CAR IS FOUND CONCEALED IN STRAW

The Ford Sedan belonging to Joseph Grout of Winchester which was stolen last Sunday evening from Diamond Court, was found yesterday hidden in a straw stack on the farm of Henry Wax northwest of the city. Mr. Wax discovered the machine while inspecting one of his fields. The car was driven close to the stack and lightly covered with straw.

Mr. Grout came to the city Friday evening and claimed his car. Police had brought it in from the farm, after being notified by Mr. Wax of its presence there.

BRADSTREET'S REPORT
WILL SAY TODAY

NEW YORK, Feb. 2.—Brad-
street's tomorrow will say:
"Events of the week have been
mainly favorable, this character-
ization at least covering fairly well
most domestic happenings. Spring
trade with jobbers at the larger
cities has expanded, collections
are a little better and industry has
kept up the fast pace previously
noted."
"Relatively most activity is
noted in large eastern markets
and in central and southern cen-
ters. Retail trade has relatively
speaking, tended to lag, which is
only natural at this season, but
still exceeds a year ago and re-
ports from the larger markets are
quite unanimous that January
showed a big surge forward in
jobbing and wholesale buying as
compared with January a year
ago, gains of 25 to 50 per cent
being instances."

Market Report

COLD WAVE PREDICTIONS
STRENGTHENS WHEAT

CHICAGO, Feb. 2.—Cold wave
predictions and anticipated pas-
sage of the Lentoo, farm credit
mill thru the senate had a
strengthening effect today on the
wheat market. The close was
firm at the same as yesterday's
finish to 1¢ higher, May \$1.18 to
\$1.19, and July \$1.12 to \$1.13.
Corn gained ½¢ to ¾¢, and oats
1 to 1½¢. Provisions closed 2 to 10¢
off.

Fears that expected severe tem-
perature in the winter wheat belt
would for the most part find the
crop without snow protection and
that considerable damage might
result led to relatively greater
strength in the July delivery than
in May the latter month reporting
wheat already harvested while
July stands for wheat still in the
ground. All months showed an
upward tendency as the day drew
to an end, and an affirmative vote
in the senate was momentarily
looked for in regard to the Len-
too bill.

Speculators who previously had
sold were the chief buyers.
Bullish developments as to
corn tended to make sellers of
wheat cautious. The principal
new reason given for rising prices
in the corn market was confirma-
tion of heavy damage to the Ar-
gentine corn crop, a large portion
of the crop being reported as hav-
ing been irreparable injured by
drought. Corn rose to within a
fraction of the highest price this
season. There was good commis-
sion house buying from the out-
set and some authorities said that
part of this buying was for export
account. Aside from the Argen-
tine, news talk was current that
Germany was purchasing grain
because of being forced to substi-
tute alcohol for coal as fuel to
factories.

Oats followed corn.
Provisions were lower.

M. C. HOOK TO HEAD LOCAL COMMITTEE

Duties Are to Arouse Interest in the Proposed State Police Bill—Morgan County Would Have Barracks Located Here.

M. C. Hook has been appointed by Chamber of Commerce President, E. V. Rowe, to act as Morgan County chairman for the State Police Bill committee of the Illinois Chamber of Commerce. Mr. Hook will select two committees to assist him and the work of arousing interest in Morgan county in the proposed state police legislation will be begun at once.

The State Police Bill was introduced in the senate on January 30 and it will not be introduced in the house until the senate takes action. It is thought that this will probably be decided in the latter part of February. Before this time committees from all over the state will meet at Springfield to make plans for concerted action in trying to bring about the passage of this bill in the state legislature.

In the event of this State Police Bill being passed, the indications are that Morgan county would have a barracks located in Jacksonville with probably about 25 men being detailed for this territory. The duties of these men would be to patrol the hard roads and the outlying sections of the county and adjoining counties.

The Illinois Agriculture Association, thru its 95 Farm Bureaus, is cooperating in the passage of this bill. The Illinois Bankers Association is 100 per cent for the passage of the bill. The Rotary, Kiwanis, and Lions Clubs are also interested in this passage, as well as the motor clubs, and insurance organizations thruout the state.

LOCAL COMMITTEE TO ATTEND HEARING

Receive Notice from Washington as to C. P. & St. L. Abandonment—Date of Hearing is February 6.

The Chamber of Commerce is in receipt of a notice from the interstate commerce commission at Washington, D. C., regarding the finance docket No. 2703 which refers to the matter of the C. P. and St. L. railroad which is applying for a certificate of public convenience and plea for abandonment of the road. The notice states that this matter will come up for hearing before the interstate commerce commissioner, J. F. Gray, on February 6, at 10 a. m. at the Illinois commission headquarters in Springfield.

The Chamber of Commerce committee, headed by Chairman A. R. Eyre and Attorney J. J. Reeve will be present at this hearing. It is planned to have a number of attorneys, together with a number of witnesses from each county affected by the proposed abandonment of the road, present to set forth the people's case at the hearing.

It will be shown at this hearing that the abandonment of the C. P. & St. L. railroad would be one of the greatest financial catastrophes which has ever occurred in the State of Illinois. Such action would result in twelve towns and villages being absolutely cut off from railroad facilities and would cause two-thirds of the population to move away from these towns.

One chauntauqua, with an investment of over \$3,000, which includes an auditorium, cottages, etc., will have to be abandoned if the railroad is discontinued. One elevator firm having several elevators along the line would have to discontinue business. This firm is now hiring car repairers to repair the C. P. & St. L. cars in order to move its grain. Two coal mines will have to be closed down. A shoe factory will be materially affected and several factories making fertilizers will have to be closed down completely.

A bitter fight will be made by patrons of this road to keep it in operation and no effort will be spared to prevent an abandonment of the line as urged by the owners of the road. Jacksonville will be affected as seriously as will other cities but discontinuance action will mean the total abandonment of the C. P. & St. L. shops with unemployment as an immediate result. Devaluation of farm values would also follow the abandonment of the road and this would materially affect the prosperity of Jacksonville as a trading center.

The Ladies Aid, Lynnville Christian church, will hold market, Furry & Sons window, today, beginning at 11 a. m. Phone 131.

HERMAN E. BARRETT TRIES TO ESCAPE

H. E. Barrett, slayer of Mrs. Asa M. Pemberton, was caught Thursday evening in an attempt to escape from the county jail. He had saved away one bar on a bathroom window, and was busy on several more when discovered by Sheriff Wright. Officials believe that, if he had been allowed to work two or three hours more, Barrett would have made good his escape. He had his belongings packed in a suitcase and was ready to flee as soon as he made an opening in the bars.

Stop Coughing Use Merrigan's Cough Drops

GREY'S FREED OF CHARGE. All charges against the twenty-nine Greys, who were found guilty of the murder of Sheriff Lashbrook at Frederick in Schuyler county last April, have at least been dismissed. Men of Central Christian Church Meet Friday Evening and Enjoy Good Supper—Entertainment Pleases Members.

One of the most enjoyable meetings held at the Central Christian church this year was that of the Brotherhood of the church Friday evening. A splendid supper was prepared by C. L. Mathis and LeRoy Craig, with the assistance of a committee of the members. About fifty sat down to the tables.

The entertainment was in charge of H. C. Clement, chairman of the committee, and W. H. Self, president of the Brotherhood. W. O. Baumgartner, the mail inspector, gave a number of sleight-of-hand performances, which astonished and delighted the audience.

This was followed with two reels of motion pictures, the first containing Laughographs and scenic pictures, and the second a portrayal of "Railroading in the Andes Mountains." The menu of the supper last evening is as follows:

Country Sausage Baked Potatoes
Brown Gravy
Dill Pickles Apple Butter
Hot Biscuits
Cottage Pudding Caramel Sauce
Coffee

FORD TON TRUCK with stake body and cab. Big bargain. Terms arranged.

TRAP FOR MANY AUTOS

The hill near Arnold, over which users of the hard road east of here must still detour, is in a very bad condition, according to reports of travelers. One man saw five cars stuck on the hill in a few minutes, all of which had to be pulled out by a team of mules. However, the Wahash subway has been dug out to such an extent that traffic will be able to pass under the track in a few days.

FIRE DEPARTMENT ROTARY SUBJECT

Suggestion is Made for Reserve Company of Twenty Five Men Will Be Presented to City Council at Next Meeting.

Fire prevention and fire department efficiency were discussed from every angle at the weekly luncheon of the Rotary Club held at the State Street Presbyterian church yesterday noon. Several of the members of the club and invited guests suggestions to improve the fire department work.

The guests of the club were Fire Chief Samuel Hunt, Alderman Michael McGinnis and Hackett Wilder.

Dr. A. H. Dollear, vice-president of the organization presided and after a group of songs by Hackett Wilder, introduced a number of speakers.

Albert Metcalf read a communication that will be presented to city council at the next regular meeting. The communication deals with the Reserve Fire Company. It was prepared by Mr. Metcalf and Dr. W. P. Duncan.

Those who spoke were Albert Metcalf, M. C. Hook, Earl Spink, A. R. Taylor, Frank Byrns, Frank Hehl, Samuel Hunt, Michael McGinnis, W. T. Harmon and Mayor E. E. Crabtree.

The luncheon was served by the ladies of the State Street Church.

The communication which will be presented to the council follows in full:

To the Honorable

The Mayor and City Council of Jacksonville.

Gentlemen:

As city officials and as individuals you have noticed that at every fire of any size there are many men who render valuable assistance to our regular fire department.

The idea occurred to several of us that the City of Jacksonville can easily capitalize this fine spirit of cooperation and service and can build up a splendid Reserve Fire Company. Such an organization would render most efficient help to our firemen in times of great emergency.

We make the following suggestions subject to revision as may be deemed necessary.

1. Have the Mayor and City Council appoint a committee of five wire citizens to issue a call for volunteers for the purpose of organizing a reserve fire company.

2. Out of the number of volunteers select by careful physical examination a company of (25) twenty-five.

3. Have the selected twenty-five elect a captain and one or two lieutenants. Let these officers appoint four or five sergeants, so that the company could be divided into five squads of five each; each squad a unit by itself.

4. After the organization is completed then arrange with the Fire Chief and the State Bureau of Fire Prevention to conduct courses of instruction in which the fire apparatus could be explained and demonstrations. The correct way of fighting a fire could be a special subject for study.

5. Have one group or unit of five specialize in cutting electric service so that the work would be made safe in the fire district.

6. Provide each volunteer with an official fireman's badge. Arrange for the Telephone Company to call the volunteers needed.

7. Arrange each year for an official public recognition for service rendered. Sometimes this is done at a banquet or in other ways that might be thought advisable.

The reasons for an organization built along the lines suggested might be mentioned as follows:

(a) Need of a thorough physical examination. To be sure that the reserve fireman is strong enough to carry an average sized person up or down a fire ladder. No one with a weak heart should be selected. In times of bad fires the average man will become exhausted and is not able to stand the strain.

(b) The city is to buy additional fire fighting equipment, yet the city has no money to hire additional firemen, therefore why not use to advantage the desire to help that is shown at every fire. It is a well known fact, that if it had not been for the volunteers of the past few years, some of our fires might have been much more serious. If ordinary untrained firemen can render such conspicuous service, what a help it would be, if they were trained.

(c) Some of the space over the fire department might be equipped with simple gymnasium apparatus for use of the regular firemen and for the reserve company.

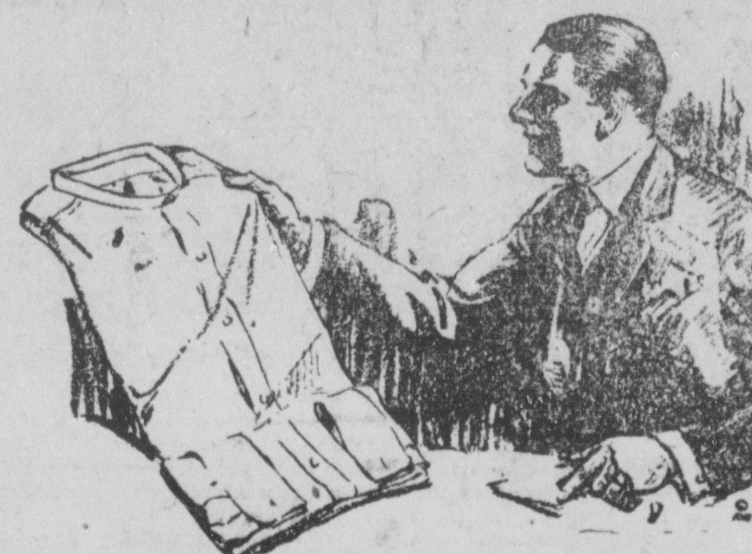

(d) We believe that the suggestions would prove popular with all good citizens of Jacksonville and particularly with those who have interests in the fire district.

Respectfully submitted, ALBERT C. METCALF, DR. W. P. DUNCAN

CONGREGATIONAL MEN IN REGULAR SESSION

The members of the Congregational church Brotherhood held a regular meeting Friday evening at the church. An excellent supper was served at 6 o'clock by the men and later came the program of the evening.

A group of songs was given by Miss Lorene Dewese of the faculty of the School for the Blind, accompanied by Mrs. G. E. Stickney. President R. W. Woolston then introduced the speaker of the evening, Dr. R. V. Brokaw, county health officer. The speaker announced as his subject "The Fourth Dimension." This did not prove to be a mathematical discussion but a very much worth while talk on life and practical ways in which to solve its problems.

During the evening, Rev. Mr. Stickney made announcement of the plans of the forum committee. It is the expectation that a number of prominent persons will appear as forum speakers at the church during coming weeks, the forum series to begin within a week or two.
